

# HOW TO MEASURE WALL FOR WALL COVERING

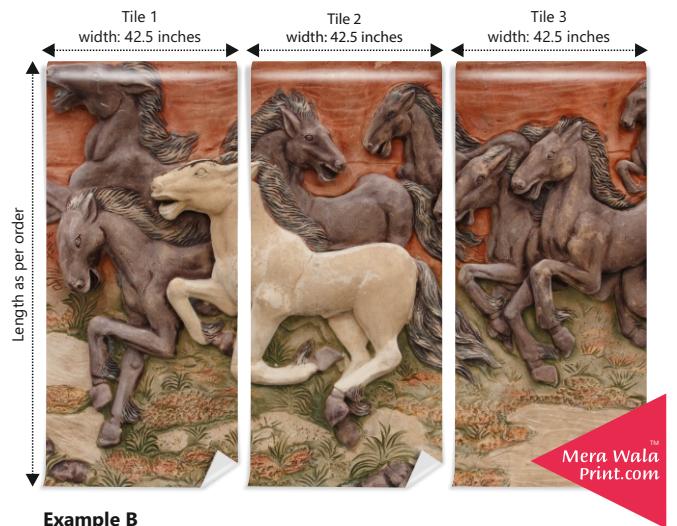

1. Measure the Length and the Height of the wall with atleast 6 inches extra margin on both the sides
2. Do not remove the window area if any, to avoid any shortage of wall covering
3. All Wall Coverings will come in 48 inch width and length as per the order
4. Sometimes you may get Wall Covering width less than 48 inches as we may resize the tile of each print as per the length of the wall. See the picture below:

## Wall Covering Tile Examples

### Example A

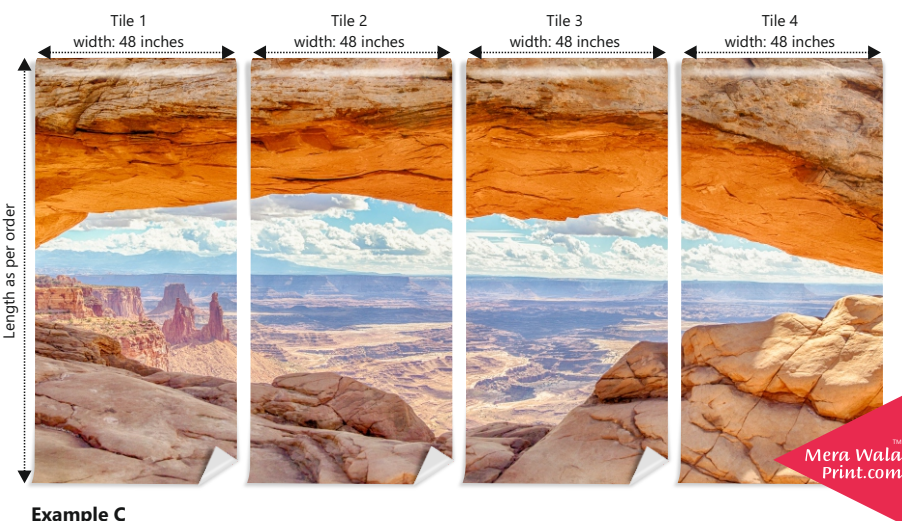

Roll width: 48 inches  
 Length: As per order  
 Wall length: 12 ft, 3 tiles of 4ft is required with 0.5 inch overlap

### Example B

Roll width: 42 inches  
 Length: As per order  
 Wall length: 10.5 ft, 3 tiles of 42.5 inches is required with 0.5 inch overlap

5. Or we can make 4 tiles and so on of the complete Wall Covering as we have restriction of media width. See the picture below:

### Example C

Roll width: 48 inches  
 Length: As per order  
 Wall length: 16 ft, 4 tiles of 48 inches is required with 0.5 inch overlap
